

CANADIAN PERCHERON ASSOCIATION

RULES AND REGULATIONS FOR ARTIFICIAL INSEMINATION

- 1) The following animals shall be eligible for registration:
Those registered in the Stud Book Percheron de France, the British Percheron Horse Stud Book or the Percheron Stud Book of America.
- 2) The following animals shall be eligible for registration:
Those born in Canada that are the progeny of animals registered in the Canadian Percheron Stud Book (such animals that are the result of artificial insemination or embryo transplant may be registered if they and both parents have been DNA tested and meet any other regulations approved by the Board and the Department of Agriculture for Canada).
- 3) Applications for Transfer of Ownership forms shall be supplied by, and when completed, submitted to, Canadian Livestock Records Corporation. In the case of bred mare, the Certificate of Service portion of the form shall be completed. Change of ownership shall be endorsed by Canadian Livestock Records Corporation on the back of the original Certificate of Registration, which must be sent to Canadian Livestock Records Corporation with the Application for Transfer of Ownership.
- 4) Application for registration of animals born in Canada shall be made on forms supplied by Canadian Livestock Records Corporation. The form must be signed by the owner of the animals at the time of birth, by the breeder of the animal, and by the owner of the sire at the time the dam was serviced. The dam must be registered in the Canadian Percheron Stud Book in the name of the owner signing, and, unless Article 20, Section 1, is applicable, the sire must be registered in the Canadian Percheron Stud Book in the name of the owner who certified the breeding service. Animals are not eligible for the initial registration after they have reached their second birthday.
- 5) Require a Stallion Report to be filled out on all stallions by January 31 of the following year.
- 6) Requirements for selling storable semen:
Semen collected to be sold for later use must be transferred and a copy of the transfer must be sent to CLRC within a period of 45 days (and listed on the Stallion Report). eg. If someone sells frozen semen with the understanding that the purchaser will use it at sometime in the future on a mare to be determined at that time.
- 7) Registration of a foal resulting from AI must be parentage verified by DNA prior to registration.
